

Irrigation Technician

The Irrigation Technician reports directly to the Golf Course Superintendent and works closely with the Assistant Superintendent to ensure the health and quality of the golf course and practice facilities. The role is critical in maintaining the course's aesthetic appeal and optimal playing conditions by completing the maintenance and repairs of all irrigation and drainage systems of the golf course.

General Responsibilities & Requirements

- Inspect, troubleshoot, and repair irrigation systems, including sprinklers, valves, piping, controllers, and sensors.
- Manage computer-controlled irrigation schedules based on weather conditions, turf needs, and seasonal adjustments to optimize water usage and conserve resources; track water usage and ensure compliance with local water regulations.
- Work with the Golf Course Superintendent and maintenance team to design and implement system upgrades or expansions as needed.
- Operates with the highest competency, all golf course-related equipment; play an active role in the daily operations of the golf course, assisting with other turf maintenance tasks as needed.
- Comply with all Point Roberts Golf and County Club policies as set out by the Superintendent and Management team.

Qualifications

- 2-3 years or related experience preferred
- Knowledge of irrigation systems, including pump stations and all components
- Ability to work outdoors in various weather conditions

Compensation & Benefits

- \$50,000 - \$55,000 salary based on experience
 - 100% employer-paid medical, dental, vision, life insurance.
 - 401k plan available
 - Complimentary temporary housing for relocation, if necessary, for up to six months.
 - Golf privileges, clubhouse food discounts, team dinners, and events.
